

/home/rory/Projects
/ece-6122-final-project
/src/ProgramConfig.h

```
graph TD; A["/home/rory/Projects  
/ece-6122-final-project  
/src/ProgramConfig.h"] --> B[cstring]; A --> C[cstdio];
```

The diagram illustrates a file path structure. A gray rectangular box at the top contains the path: /home/rory/Projects, /ece-6122-final-project, and /src/ProgramConfig.h. Two blue arrows originate from the bottom of this box and point downwards to two separate white rectangular boxes. The left box is labeled 'cstring' and the right box is labeled 'cstdio'.
